Exploring Compressed Natural Gas

Taylor Shinn, Corporate Development Manager of Chesapeake Energy Corporation was the featured presenter for ICTC's Lunch with EARL on October 30, 2009.

Natural gas is clean, affordable, abundant and American.

Chesapeake's goal is simple – generate industry-leading shareholder returns by developing and executing on a distinctive business strategy that is focused exclusively on exploring for and producing natural gas onshore in the U.S.

Natural gas is clean, affordable, abundant and American. Chesapeake believes natural gas will continue to gain market share in the U.S and around the world for years to come because of its affordability

and cleanliness. Chesapeake intends to continue leading the industry in developing even greater supplies of U.S. natural gas in the years ahead.
