Indian Capital Technology Center

Muskogee Sallisaw Stilwell Tahlequah

2009

Judy Martens (left), Director of the Sallisaw Chamber of Commerce, displays a poster designed by Jesse Her (right), a student at Indian Capital Technology Center, Sallisaw. Her was honored during the Chamber's Character Council Meeting. He is a student in the EAST program and designed the posters for a Character Trait Poster Project.

## **ICTC Student Honored By Sallisaw Character Council**

One Student, One Assignment, One Vision – that's how the Character Trait Poster Project became a reality for Jesse Her. Her, a student in the EAST Program at Indian Capital Technology Center in Sallisaw, used his Senior English assignment to design posters portraying the City of Sallisaw's Character Trait of the month. "We knew that Jesse was a gifted designer, but the professional quality work he has turned out on this project exceeded everyone's expectations," says Jodi Keith, Facilitator of the EAST Program at ICTC. "People are always asking where we bought them."

Her was honored at the Chamber's Character Council Meeting held last week. "I was very excited when Judy Martens came over to my classroom and saw Jesse's designs, says Keith. "She told me that she would like to honor him at the Chamber meeting...he was so nervous."

Jesse's work is on display at the Chamber of Commerce and in the two main buildings at Indian Capital Technology Center, located at 401 Houser, Sallisaw.
