OneOK Gas and ICTC Make Donation to Keys Fire Department

Ed Roberts with OneOK Gas, in conjunction with the Auto Collision Program from ICTC's Tahlequah Campus, recently donated two Life Pack air support systems to the Keys Fire Department. These systems are vital to the fire departments operations to allow firemen access to areas that require a fresh air supply and are valued at several thousand dollars. These units will be put to good use as the Keys Fire Dept. continues to serve the Keys area in various emergency situations. Present at the presentation included (left to right) Denver Spears, ICTC Campus Director; Bill Sprague, ICTC Auto Collision Instructor; Yogi Cole, Bill Wilson and Mark Walker, all with the Keys Fire Department, and Joe Green
