Rickey Teehee Sallisaw Campus Student of the Month

ICTC's January Student of the Month is Rickey Teehee, a Muldrow High School senior enrolled in the ICTC career major Automotive Service Technician. Instructor Randy Lowe describes Rickey as a great student, saying "He has an incredible attitude, works well with others, and always wants to learn."

An active member of CareerTech's SkillsUSA organization, Rickey is a key member of the opening-closing team. He is also a member of ICTC's A-Team, an elite group of students who perform community service and explore their leadership potential. Rickey earned SkillsUSA's Stateman's Award.

Rickey's hobbies and interests include hunting, fishing, working on cars and trucks at home and in the shop, and spending time with family. He is also a member of Muldrow High School's art club. A recurring project for Rickey and his church group is to try clean up a local highway by picking up trash periodically.

Rickey likes ICTC's automotive career major and says, "You're always busy and it's challenging." After graduating from Muldrow High School, Rickey plans to attend OSU Institute of Technology in Okmulgee and earn a degree in the automotive field.
